

Kerry Miller and his trial team join Fishman Haygood

Fishman Haygood welcomes the formidable trial team of Kerry Miller, Paul Thibodeaux, and Daniel Dysart to the firm's litigation group. Miller's broad civil and criminal defense practice covers environmental, industrial failure, insurance coverage, and construction matters.

Miller and his team are known for their high-level legal work and unrivaled work ethic. Thibodeaux's background as a civil engineer helps the team efficiently get to the heart of complex matters. Dysart, a quick study, began his career working on Miller's most important trials. In addition to joining our firm, Dysart has signed on as an Assistant District Attorney in St. Bernard Parish, where he will gain valuable jury trial experience and develop statewide contacts.

"Kerry and his team bring experience in big ticket disaster cases and big money commercial cases that will expand our firm's capabilities greatly," says Jim Swanson, managing partner at Fishman Haygood.
